

**2025 APBA PRO FOOTBALL SET ROSTER**

The following players comprise the 2025 season APBA Pro Football Player Card Set. Players in **bold** are starters. The regular starters at each position are listed first and should be used most frequently. Realistic use of the players below will generate statistical results remarkably similar to those from real life. The number in ( )s after the player name is the number of cards that the player has in this set. **IMPORTANT:** When a Red "K" appears in the R-column as the result on any kind of running play from scrimmage or on any return, roll the dice again, refer to the K-column and use the number there for the result. When a player has a "K" in his R-column, he can never be used for kicking or punting. If the symbol "FR-K" or "FR-P" appears on a player's card, it means you use the K or P column when he recovers a fumble. If there is a difference between the player's card and the roster sheet, always use the card information. See below for a more detailed explanation of new symbols on the cards.

The issue is the "Jet Sweep" (slot receiver goes in motion and receives handoff from quarterback), this play is not a trick play but a designed outside run. If a WR had 10 or more runs in a season, he will be graded (EB/HB or HB/EB). APBA considers the "Jet Sweep" as a receiver in motion receiving handoff. If there is a FR-0 on a player's card, this means that whenever the player recovers a fumble, he does not advance the ball. The fumble is recovered at the spot of the fumble. OSKR-0 Onside kick recovered no advancement. If a player has both a kickoff designation (OA, OB or OC) and an OSKR designation, use the OSKR only in the case of an onside kick. TC-0 Punt return with no return. TC-FC Punt return with automatic Fair Catch. OC-0 Kick return with no return. W-X(0) Interception with no return.

This set uses the new quarterback designation of Quarterback\*. A player rated as a QB\* is treated like a regular running back and is graded as a combination running back. If you are playing a QB\*, you will have to call run plays for the QB, otherwise the QB\* will not have enough rushing attempts using just the scrambles in the P column.

This set is calculated for the new pro football kickoff rules. Observe the 2025 season rules for placement of touchbacks, kicks out of bounds or kicks short of the Landing Zone. Safety Kicks are taken by the KOA or KOB using the normal kickoff table (not the Safety Kick table). Add 10 yards to the stated distance of the kickoff on a Safety Kick only, any result that reads "Tb" on a Safety Kick, use 70(0) instead. Follow the regular kickoff return chart for all Safety Kick returns, do not use the Safety Kick return chart.

KA\* Kicker may attempt a field goal of up to 68 yards, a play result of 37 shall be Good from that distance. All other numbers follow the play results in the 40-49 yard line column as indicated. (Cam Little Rule)
